Commissioners,
This is to urge your rejection of the National Association of Broadcasters Petition 04-160. Please do not allow consumers to be restricted in the legal services for which they choose to subscribe on satellite radio. I hope you agree that the free market place and competition should dictate the success or failure of traffic and weather reporting services-- not government intervention. I pay for the services provided by satellite radio and trust you will not allow the weight of the government to join into this undue and unwarranted interference by broadcasters.

Thank you for your consideration.

Keith H. Weatherly
